Daniel Price
Returns to MCC

Martin County native, Daniel Price, has returned to Martin Community College (MCC) where he will teach math and administer the Completion by Design Program. Price states, "I am thrilled to be back at MCC working with our local students in mathematics as well as networking with colleges across the nation."

Price attended and graduated from Bear Grass High School (BGHS) in 1991. Three days later, he joined the Army to become an Airborne Infantryman. During his three years on active duty, Price was stationed first at Ft. Polk, Louisiana and then transferred to the Division Headquarters of the 2nd Armored Division at Ft. Hood, TX.

Following his service in the Army, Price enrolled at East Carolina University (ECU). While attending ECU, Price worked as a resident advisor for three years, as a tutor in a math learning lab, and worked nights with the ECU police department. On weekends, Price worked – and continues to work - at Deadwood, his family's business in Bear Grass.

Price also served for eight years in the N.C. National Guard unit in Williamston, which was an infantry unit at the time. While in the Guard, Price attained the rank of Staff Sergeant and was a Bradley Fighting Vehicle commander as well as a light infantry squad leader.

Upon graduating from ECU, Price accepted a job teaching high school mathematics at South West Edgecombe High School. After a year, he returned home to his alma mater, BGHS, where he taught for ten years. In addition to teaching high school mathematics, Price coached the cross country running team, boys and girls tennis, and varsity girls’ basketball. While teaching at BGHS, Price was twice selected as teacher of the year.

Price continued on Page 2
Local Ag Extension Agent enhances MCC Early Childhood Classes

Whitney Watson, a NC Cooperative Extension Services Area Family & Consumer Sciences Agent for Bertie and Martin Counties, is providing a series of lectures to Elaine Spellman’s Early Childhood Education class this fall. She is partnering with MCC to promote nutrition and food safety as they relate to Elaine’s class objectives.

Pictured right is a picture of Watson’s Glo-Germ and hand washing presentation on 9/17 which emphasized the importance of clean hands when working with food and children. The Glo-Germ program demonstrated just how quickly germs can spread.

On October 27, Watson will present “Choose My Plate” a program that encourages healthy eating through food models, with an emphasis on correct portion sizes.

On November 12, Watson will provide an overview of “Color Me Healthy,” a curriculum used to teach preschoolers the importance of moving and eating healthy.

Price, continued from page 1

Price acknowledges BGHS principal Hal Davis as being his mentor and providing him with the resources, flexibility, and encouragement to attain a master’s degree in mathematics education, National Board Certification, and Administrator’s Certification for K-12. These credentials paved the way for Price to become assistant principal at East End Elementary School for a year and then transfer to South Creek Middle School in the same position.

Price first joined the MCC staff in January 2011, starting out as a mathematics instructor and then becoming the Completion by Design project leader in July 2013. He left MCC for a short time to return to the Martin County Schools system as their first mathematics coach in 15 years, working with teachers from Kindergarten to 8th grade.

MCC President, Dr. Ann Britt, stated, “I am very happy to have Daniel Price back on our campus. He is an extraordinary math instructor, who creates learning environments that engage and excite students. His High School teaching experience is very desirable as MCC continues to expand its relationship with both the Martin and Bertie County Schools systems – especially the Bertie Early College High School and NERSBA in Jamesville.”

Price married Tina Leggett, also a graduate of Bear Grass High School and ECU. They have two daughters, Kara Reine (named after Supergirl) and Adore Grey (named after She-Ra). His parents still live in Bear Grass, where they continue to expand and run Deadwood with his oldest brother. Price notes that he has two brothers and two sisters, and collectively they have nine college degrees and counting.

Price states, “I love running, tennis, vintage toys, and anything George Romero (film director). The 80’s was, without proof, the greatest decade ever.”

**Notice of MCC’s 2015 Annual Security Report Availability**

MCC’s annual security report is now available. This report is required by federal law (Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act) and contains policy statements and crime statistics for the college. The policy statements address the college’s policies, procedures and programs concerning safety and security, for example, policies for responding to emergency situations and sexual offenses. Three years’ worth of statistics are included for certain types of crimes that were reported to have occurred on campus, in or on off-campus buildings or property owned or controlled by the college and on public property within or immediately adjacent to the campus. The complete report is available online at [http://www.martincc.edu/?q=securityreport](http://www.martincc.edu/?q=securityreport). You may also request a paper copy from the Office of Student Services. Crime statistics in the report were collected from campus security and local law enforcement agencies that serve the College’s main campus and off-site centers. Also available upon request is our Daily Crime Log, which includes: crime report dates, occurrence dates, locations, nature of crimes, and the disposition of the complaints.

The remainder of this notice is only a summary of our safety and security policies, procedures, and crime statistics and we encourage all faculty, staff, students, and visitors to read the complete report on our website.

*Security Report continued on page 10*
The SECU Partnership East application window is now open! The East Carolina University College of Education has established the SECU Partnership East. Through collaboration and innovation, the partnership focuses on preparing teachers who will help meet the demand for well-trained professionals in the classrooms of North Carolina and beyond. This endeavor involves partnerships with community colleges and public schools across eastern North Carolina.

SECU Partnership East students graduate with a four-year degree from East Carolina University (ECU) by completing the first two years of the program at any North Carolina community college followed by taking ECU courses on-line. Students graduate with a Bachelor of Science degree in either:

- Elementary Education K-6,
- Special Education General Curriculum K-12, or
- Middle Grades Ed (Social Studies/Language Arts) 6-9

SECU Partnership East is also excited to announce the launch of a series of webinars to provide information about becoming a teacher through SECU Partnership East.

Anyone interested in pursuing a career in teaching is encouraged to apply. To request an unofficial transcript review and advising session, contact Jenifer Marquis at 252-638-6492 or via email at marquisj14@ecu.edu

Qualified students may apply to SECU Partnership East by copying and pasting the following link into their browser - http://www.ecu.edu/cs-educ/partner_east/application_process.cfm

---

Jarvis Parker is new Bertie Welding Instructor

Jarvis Parker joined the Martin Community College (MCC) Faculty on August 27. He will be teaching welding to Bertie High School students enrolled in the Industrial System Technology Career and College Promise Pathway Certificate program as well as to students enrolled in MCC night classes.

Parker was selected after an extensive search to find a seasoned welder with considerable teaching experience. Having taught both welding and CTE (Career and Technical Education) in the Hertford County Schools for fifteen years, and working as a welder for 22 years at Newport News Shipbuilding, Parker was a natural fit for the position.

Parker, himself a graduate of Bertie County High School in Windsor, has extensive work experience in SMAW (Shielded Metal Arc Welding), MIG (Metal Inert Gas welding) and
“Art of Dressing” Benefit Fashion Show was Fun and Successful

The Martin Community College (MCC) Foundation was the beneficiary of proceeds from the Art of Dressing benefit fashion show held on September 24 in the main gallery of the Greenville Museum of Art. Sponsored by Bella Magazine owner and editor, Westray Nicholson, the event raised funds to provide scholarships in memory of his father, Dr. Thomas Nicholson, to MCC students enrolled in medically related fields of study. Approximately 80 guests enjoyed delicious “champs and nibbles” as well as the latest fashion trends in clothes, shoes and jewelry. “It was a great event,” stated Nicholson. “The merchants are already talking about doing it again next year! Video highlights of the show will soon be posted on the Bella Magazine NC Facebook page.”

Parker Continued

FCAW (Flux-Cored Arc Welding). His CTE training has prepared him to empower all students to be successful citizens, workers and leaders in a global economy.

While working for the Hertford County Schools, Parker taught Welding, Career Management, Introduction to Trade, and Exploring Career Decisions. He taught at Hertford County High School, Hertford County Middle School and in the Alternative Learning Program.

Parker also attended the Bible Teaching Institute in Virginia Beach, VA from 1995 to 1997. This led him to an Ordained Minister License and to a pastor’s position with the Soul Saving Station Church in Ahoskie, NC, which he has held since 2010.

Parker’s volunteer work includes counseling and teaching life skills to people on probation for DRC (Day Reporting Center), mentoring boys from ages 11-16 at Exodus for Youth Program, and coordinating six area prison programs implemented by prison chaplains.

According to Dr. Jennifer Burruss, MCC’s Dean of Academics and Student Services, “We are so fortunate to have Mr. Parker joining our staff. It is rare to find an experienced and talented tradesman with teaching experience. Another plus is Mr. Parker’s experience in the ministry. His five years as a pastor have helped him hone his public speaking and communication skills. He will bring a lot of energy to this new program in Bertie County.”

Parker resides in Ahoskie with his wife and three children. He enjoys reading, sports and art in his spare time.

Library Book Sale Ending

The MCC Library will continue to sell its surplus books until October 30. From now until the last Friday in October, materials may be perused and purchased in the MCC Library from 8:00 am to 9:00 pm, Monday through Thursday and from 8:00 am to 4:30 pm, on Fridays. MCC’s Library Director Mary Anne Caudle states, “We have lots of biographies, memoirs, history, craft and needlework books for sale and we are giving away audio books on cassette tape and movies on VHS.” Prices vary from 50 cents for small paperbacks, $1 for large paperbacks, $2 for hard covers and $3 for coffee table books.
Pictured above from left to right are; SECU District 42 Senior Vice President Brent Glover, MCC Welding Student David Birdo, MCC President Dr. Ann Britt and MCC Accounting and Business Student Kristi Godley. Glover presented Birdo and Godley with certificates of recognition and congratulated them upon receiving SECU Foundation scholarships to attend Martin Community College (MCC).

State Employees’ Credit Union Members Award $5,000 Scholarships to MCC Students

State Employees’ Credit Union (SECU) members, through the member-funded SECU Foundation, presented $5,000 scholarships to Kristi Godley of Williamston and David Birdo from Plymouth, for attendance to Martin Community College.

Based on the Credit Union philosophy of “People Helping People,” these scholarships recognize the recipient’s desire to obtain a college degree and change their lives - as well as the lives of others – for the better. Scholarship funds will be applied to tuition and other expenses associated with their community college education.

State Employees’ Credit Union’s local Advisory Board member Dempsey Bond comments, “My fellow SECU members and I are dedicated to helping North Carolina students succeed in their pursuit of higher education. The SECU Foundation ‘People Helping People’ Scholarship program allows us the opportunity to provide resources for many deserving individuals to attain their educational goals through our State’s excellent community college system.

The Martin Community College (MCC) Student Government Association (SGA) started off the fall semester by sponsoring a Red Cross blood drive on the Williamston campus on September 1. MCC reached its goal of nineteen pints. Pictured giving blood above are MCC English Instructor Debra Twitchell (front) and Director of Research and Institutional Effectiveness Maureen Green (back). Red Cross officials stated that they visit the MCC campus at least once each year.
**SECU continued**

As a representative of SECU’s membership, I am very pleased to award these scholarships to Kristi Godley and David Birdo.”

Annually, SECU members provide two “People Helping People” Scholarships to each of the 58 community colleges in North Carolina through the SECU Foundation scholarship program. To date, over $6 million has been awarded to help the State’s community college students further their education.

SECU is a not-for-profit financial cooperative owned by its members and has been providing employees of the State of North Carolina and their families with consumer financial services for 78 years. The Credit Union also offers a diversified line of financial advisory services including retirement and education planning, tax preparation, insurance, trusts, estate planning and investments through its partners and affiliated entities.

SECU serves 2 million members through 254 branch offices, over 1,100 ATMs, 24/7 Contact Centers and a website, www.ncsecu.org. The SECU Foundation, a 501c (3) charitable organization funded solely by the contributions of SECU members, promotes local community development in North Carolina primarily through high impact projects in the areas of housing, education, healthcare and human services.

---

**MCC Welcomes NERSBA Students!**

Approximately 60 students from Northeast Regional School of Biotechnology and Agriscience (Jamesville, NC) visited the Martin Community College (MCC) campus on September 15. According to Dr. Brian Busch, MCC’s Associate Dean of Student Services, “The students received a wonderful welcome from our faculty and counselors. As part of their tour, these students were invited into our MCC classrooms to see what really takes place in our exciting programs. Faculty members, were informative and professional as always!” Pictured above is the faculty and staff panel comprised of John Wells (counselor), Rhonda Breed (Psychology and Sociology Instructor), Debra Twitchell (English Instructor), Dr. Deborah Wyman (Business Administration Instructor), and Dr. Rochelle Mabry (English Instructor). They formed a Question & Answer group that responded to questions about the college experience, especially in the classroom (both seated and online). Busch adds, “I hope many of these students will continue their studies at Martin after high school graduation. Meanwhile, we have done great work in exposing them to the many opportunities MCC has to offer.”

**MCC GED Students Use Latest Technology**

Pictured above are Marco Pittman and Linnell Bell working collaboratively on an Aquos Board in the MCC Learning Center. They are pursuing their GED (High School Equivalency) credential. The two expressed interest in the issue of slavery in the U.S. and are applying it to the Social Studies component of their GED preparation. They are reviewing a Power Point presentation from the UNC Department of African American Studies.
Larry Johnson, MCC’s Coordinator of Fire and Rescue Training, is pleased to announce that his program now has a trailer in which to haul equipment to remote training sites. “My vision for the trailer is to strengthen our commitment to public safety training by allowing us to deliver training resources off campus. Although we still have a lot of work ahead of us, this is the first step in demonstrating to the community that we are here and ready to provide a service. Starting during the week of September 26 with an Emergency Vehicle Driving class for the NC Forestry Service, MCC will be running some type of fire/rescue training monthly, all the way into mid-2016. I’m very pleased at this point with the community’s response to MCC’s Fire and Rescue program.”

Library Makes Improvements

Mary Anne Caudle, Director of the MCC Library, has announced several improvements to the facility in recent weeks.

A number of new fiction books have come in, and will continue to rotate through the stacks as they come and go on best seller lists. Patrons can look at all of newly available books on the New Books page of the MCC web site: http://martincc.libguides.com/library/new

The Library’s Young Adult (YA) Section has been moved into a more visible area and added some titles. Some of the new books are; The Fault in Our Stars, If I Stay, and The Giver. This was done in anticipation of the additional NERSBA students coming to the MCC campus this fall. Caudle reminds readers that YA books aren’t just for young adults!

The Library’s Teacher Resource Center has been expanded to include picture books on opposites, shapes, seasons, sharing, etc. The Teacher Resource Center isn’t just for teachers. Library patrons with a child or grandchild may check out these books to read to their little one.

Working in conjunction with the MCC Small Business Center, the Library now makes Statista, a tremendous database accessing hundreds of thousands of statistics on a wide range of subjects, and the capability to make graphs and charts with them. This database will be great for student research and faculty presentations. Check it out on the database page of our website: http://martincc.libguides.com/library/databases

Currently, residents of Martin, Bertie and Washington Counties may obtain library cards to use the MCC Library. For more information, call 252-789-0238 or via the web at http://martincc.libguides.com/new

Barbara Daly was pleased to get back in her newly renovated Science Lab in Bldg. 4. The transformation is amazing!

Medical Assisting students are thrilled with their new clean and modernized classroom space!

**MCC Face Lift Update - Science Labs**

**Deter Campus Crime - Use the “No Loitering” Policy**

In November of 2014, the MCC Trustees passed a “No Loitering” policy. This policy defines "loitering" as the act of entering and remaining in any internal or external area of the premises, during or after business hours, with no apparent purpose and without the apparent intent to use the college or its campuses offerings located in that area. Some examples of loitering are, roaming, walking, remaining on the premises (including but not limited to parking lots, steps, stoops, ramps, entrances, classrooms or other common areas).

The policy gives MCC employees and agents authorization to call law enforcers for assistance in removing loiterers from the campus. “The Martin County Sheriff’s office and its employees and agents are duly authorized to enter the premises to assist in the enforcement of this policy.”

Any person who is misusing the college or its campuses, equipment, or otherwise disrupting employees, students, or agents will be deemed to be violating the policy, and will be required to leave the premises.

If you need to report a loiterer, please contact the campus law enforcement officer, Steve O’Neal, at 252-661-3757.
Crime Statistics continued from page 3

Timely Warning
MCC makes timely warnings or campus alerts to the college community in the event any situation arises that is considered to be an ongoing or continuing threat to students, faculty, staff, and visitors. Warnings or alerts will be disseminated as appropriate through the College telephone alert system, the campus-wide email system; student email system, electronic bulletin boards, flyers or posters, and notices posted on the college website at www.martincc.edu. Campus warnings or alerts will notify the college community of an imminent or ongoing threat to safety, security or health and will include the nature of the threat and other appropriate information.

Reporting Crimes and Emergencies
The College requires all persons to report all known and suspected criminal activities and other emergencies that occur on campus to the Campus Security Officer and/or the Dean of Administrative Services. The MCC switchboard operator shall be available during normal business hours so that incidents of an urgent nature may be reported. The Dean of Administrative Services, having been notified of an incident, shall notify appropriate personnel, including law enforcement personnel, and investigate and document the incident.

MCC encourages anyone who is the victim of or a witness to criminal incidents that occur at MCC-sponsored off-campus activities to report them to the appropriate law enforcement agency having jurisdiction. If a victim or witness does not wish to pursue action under the MCC system or the criminal justice system, he/she may file a report on the details of the incident with the Dean of Administrative Services without revealing his/her identity. The purpose of a confidential report is to comply with one’s wish to keep the matter confidential, while taking steps to ensure the future safety of the campus community. Reports filed in this manner shall be included in the Annual Crime Report.

All criminal activities that occur on any MCC campus or at MCC-sponsored activities, including off-campus activities, shall be reported by the College President, or his/her designee, to the appropriate law enforcement agency.

Emergency Response and Evacuation Procedures
MCC has established an Emergency Response Quick Reference Guide for several significant emergencies and dangerous situations. This guide is posted in all offices and classrooms on the MCC campus. In the event of an emergency please notify your instructor and/or college officials and report all emergencies to the MCC switchboard operator by dialing “0” in house or 792-1521 on private phones. If the situation appears life threatening dial 9-911 in house or 911 on private phones. You may also use the red phones located in the cafeteria and in the hall ways of each building; these phones automatically dial the MCC switchboard operator when you lift the receiver. In addition you may also contact the Campus Security Officer and/or the Dean of Administrative Services at 789-0225.

The Dean of Administrative Services or designee will, without delay, and taking into account the safety of the campus community, determine the content of the notification and initiate the notification system, unless the notification will, in the professional judgment of the responsible authorities, compromise efforts to assist victims or to contain, respond to, or otherwise mitigate the emergency.

Building evacuations will occur when a building alarm (fire alarm) sounds and/or upon notification by college officials. When the evacuation alarm and/or notice to evacuate is enacted, occupants should immediately proceed to the nearest exit and report to the designated assembly point for that building. Building 1 will report to the wooded area across the street in front of the flag poles. Buildings 2, 3, and 4 will report to the grassy area between the rear parking lot and the children’s playground at the rear of the campus. The Bertie Campus will report to the front parking lot. Occupants should not reenter the building for any reason until they are instructed by the proper authority.

Shelter-in-place notification will be via the campus intercom system and/or by word of mouth from college officials. Should it become necessary to shelter in place due to weather, or other situations please exit rooms quickly and in an orderly fashion. Refer to the building layouts posted in each room to inform occupants of the safe routes and designated shelter-in-place areas for each building.

Lockdown notification will be via the campus intercom system and/or by word of mouth from college officials. Students who are on campus should seek cover in a classroom and follow the instructor’s directions. If students are out of doors they should seek concealment to avoid being visible target. Cell phones should be put on vibrate immediately. Access to the campus will be controlled by law enforcement during lockdown.

Security of and Access to Campus Facilities
Access to MCC facilities shall be provided to the public on weekdays from 7:00am until 9:00pm, except for scheduled holidays or announced periods of closure.

Campus Law Enforcement
A full-time Security Officer and support from state and local law enforcement agencies that have jurisdiction over the campus provide for campus security. The Security Officer and local law enforcement officers have complete police authority to apprehend and arrest anyone involved in illegal acts, either on or off campus. Cont. on pg. 11
Continued from page 11

Security Awareness and Crime Prevention

Each year, during orientation and semester start-up, students are informed of services offered by the college. Instructors inform students on evacuation, shelter in place, lockdown, and other campus safety procedures. Students, faculty and staff are informed about crime on-campus, non-campus, and on public property adjoining our campus via the Annual Crime Report. Similar information is presented to new employees. Periodically during the academic year, in cooperation with other organizations and departments, the college will present crime prevention awareness and personal safety sessions. A common theme of all awareness and crime prevention programs is to encourage students and employees to be aware of their responsibility for their own security and the security of others. In addition to seminars, information may be disseminated to students and employees through crime prevention awareness packets, security alert posters, displays, videos, and articles and advertisements in the college and student newspaper and website. When time is of the essence, information is released to the college community through security alerts posted prominently throughout campus, through computer memos sent over the college's electronic mail system and a voice mail broadcasting system.

Drug and Alcohol Policy

The unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance or alcoholic beverages is prohibited in the College workplace, on College premises, or while participating in or attending any College-sponsored activities. MCC does not differentiate between those who manufacture, distribute, dispense, sell, possess, or use controlled substances or alcohol. Any MCC current employee or currently enrolled student who is convicted of violating any criminal drug statute or alcoholic beverage control statute is subject to the MCC disciplinary action policy, up to and including termination/expulsion.

Each employee or student is required to notify the College within five (5) calendar days after he/she is convicted of a violation of any federal, state, or local criminal drug statute or alcoholic beverage control statute where such violation occurred while in the workplace, on College premises, or as part of any College-sponsored activity.

Drug-Free Awareness Program

The College’s Drug-Free Awareness Program informs employees and students about the dangers of drug abuse, government policy of maintaining a drug and alcohol-free environment, any available drug or alcohol abuse counseling, rehabilitation, and assistance programs, and penalties that may be imposed upon employees or students for drug abuse violations.

Preventing and Responding to Sex Offenses

Periodically during the academic year the college will support prevention awareness programs, available to all students and employees, on dating violence, domestic violence, sexual assault, and stalking. Local law enforcement, the REAL Crisis Center, http://realcrisis.org/, 252-758-4357, and the Center for Family Violence Prevention, 252-809-4290, will assist the college in these prevention awareness programs.

A victim of sexual assault on MCC premises should, as a first priority, get to a place of safety. The victim should then obtain necessary medical treatment. MCC strongly advocates that a victim of sexual assault report the incident in a timely manner. Time is a critical factor for evidence collection and preservation. If you are a victim of or a witness to sexual misconduct you may contact the MCC’s Title IX Coordinator at 252-789-0293 and/or Campus Safety & Security personnel. Other helpful resources are the REAL Crisis Center http://realcrisis.org/, at 252-758-4357, and the Center for Family Violence Prevention at 252-809-4290. Campus Security and The Title IX Coordinator can provide immediate referral information, access to the College counseling, and/or investigation assistance. Filing a police report does not obligate the victim to prosecute. For complete guidance on cases involving sexual misconduct please refer to the MCC Title IX Policy: Discrimination on the Basis of Sex & Sexual Misconduct located on our website at http://www.martincc.edu/?q=TitleIX.

Information about Registered Sex Offenders

The North Carolina Department of Justice registration list of sex offenders is maintained and available at the following site: http://sexoffender.ncdoj.gov/

Input needed for County Transportation Plan

The Mid-East Commission is partnering with the NC Department of Transportation (NCDOT) to conduct a survey, the results of which will be used, to develop a Martin County Transportation plan. This plan will play a critical role in obtaining funding for Martin County’s roadways, walkways, bike paths, and public transportation. If you have not yet completed the survey, you may do it online at http://www.surveymonkey.com/s/martincountyctp. Hard copies of the survey are available, in both English and Spanish, at the front desk in the lobby of building 1. You may return the completed surveys to Judy Jennette in room 15B in Building 1 or mail them to the Mid-East Commission.
Entire MCC NA I Fast Track Class Passes State Exam!

MCC’s first fast track Nurse Aide I (NAI) Class achieved a 100% pass rate on the Nurse Aide I State Exam administered here at MCC on Friday, September 04, 2015. Everyone passed both the written and skills parts of the test! This class, offered through MCC’s Division of Continuing Education, started on July 13 and ended on August 31. Award winning nurse, Naomi Rogers, was the instructor. Pictured from left to right are Khalea Boone, Tomara Bell, Quadirah Carpenter, Cathy Napier, Samone Rouson and Mariah Nunley. Way to go gals!
